(1) The measure of dispersion is the asset-weighted standard deviation for annual period gross returns in USD of all portfolios in the composite for the full reporting period. Beginning in 2017, dispersion is not presented for periods with less than 2 accounts in the composite. Prior to 2017, dispersion is not presented for periods with less than 6 accounts in the composite.

(2) The three-year annualized ex-post standard deviation measures the variability of the monthly gross composite returns and the benchmark returns over the preceding 36-month period. It is not presented for periods with less than 36 monthly composite returns.

\* The net and gross annual returns, calculated in USD, presented for the Brandes Asia Pacific (ex-Japan) Equity composite were calculated on a time-weighted and asset-weighted, total return basis, including reinvestment of all dividends, interest and income, realized and unrealized gains or losses and are net of brokerage commissions, execution costs, and any applicable foreign withholding taxes, without provision for federal and state income taxes, if any. Securities transactions are accounted for on the trade date. Dividend and interest income is accounted for on an accrual basis. Cash and cash equivalents are included in performance returns.

Beginning January 1, 2018, Brandes Investment Partners includes Brandes Investment Partners, L.P., Brandes Investment Partners (Europe) Limited, Brandes Investment Partners (Asia) Pte Ltd. and the Brandes Investment Partners & Co. assets sub-advised by Brandes Investment Partners, L.P. For the period from 1/1/06-12/31/17 the SMA Division of Brandes was excluded from the GIPS firm definition. The firm was redefined to reflect the dissolution of the SMA Division and the firm bringing those former SMA Division assets into compliance with the GIPS Standards.

This composite was created in 1997.

Prior to April 2014 accounts were removed from the composite when an account's market value falls below US\$50,000 due to capital withdrawals.

The Brandes Asia Pacific (ex-Japan) Equity Composite seeks to achieve long-term capital appreciation by investing primarily in equity securities of Asian issuers other than Japanese issuers, as well as issuers from Australia and New Zealand. There is no limitation on the market capitalization of the issuers in which the composite may invest. Emerging markets securities pose greater liquidity risks and other risks than securities of companies located in developed countries and traded in more established markets.

The Brandes Asia Pacific (ex-Japan) Equity composite results include all actual, fee-paying and non-fee-paying, fully discretionary Asia Pacific (ex-Japan) Equity accounts that have substantially the same investment objectives, policies, techniques and restrictions.

From 2010 through 2018 composite performance after management fee returns were determined by reducing the gross of fee returns monthly by the highest applicable fee schedule per account. For 2019, composite performance after management fee returns were determined by using the highest applicable fee schedule per account in January – September, and using actual fees in October – December, with the exception of select portfolios to which the applicable fee schedule was applied for the entire year to better reflect our typical management fees.

Standard fee schedule - First \$25 million 0.95%; Next \$25 million 0.90%; Amounts over \$50 million 0.80%. Brandes' investment advisory fees are detailed in Part 2A of its Form ADV.

Brandes claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Brandes has been independently verified for the annual periods 1995 through 2019. Verification assesses whether (1) the firm has complied with all the composite construction requirements of the GIPS standards on a firm-wide basis and (2) the firm's policies and procedures are designed to calculate and present performance in compliance with the
