Brandes at a Glance

Who We Are

We are a global investment advisory firm serving the needs of investors, including individuals, financial advisors, institutions, foundations and endowments.

Among the first investment firms to invest globally using a value approach, we manage a variety of equity and fixed-income strategies.

What You Can Expect from Us

- **Value:** A singular focus on value investing
- **Global Reach**: Company-centered investment process with a global, all-cap purview
- **Endurance:** Navigating market cycles since 1974
- **Independence:** Our 100% employee ownership enables us to think long term

How We Pursue Results

Guided by the principles of Benjamin Graham, widely considered the father of value investing, we seek to take advantage of market irrationality and short-term security mispricing by buying stocks and bonds that we believe are undervalued based on our estimates of their true worth.

We believe this is the best way we can pursue the desired results for client portfolios over the long term.

Invested in Our Strategies—Alongside Our Clients

At Brandes, we have a long-established culture of investing alongside of our clients. Our Co-Investment Guidelines help ensure that our leadership's financial interests are aligned with those of our clients. Members of the firm's various Investment Committees maintain meaningful personal investments in Brandes strategies, especially the ones they co-manage.

> **"By maintaining a strict focus on the relationship between business value and stock price at the company-specific level and largely ignoring the broader market's fascination with short-term developments, value investors can exploit market behavior in pursuit of long-term gains."**
