- Fund Objective:** Long-term capital appreciation by investing primarily in global equity securities of issuers listed or traded on Recognised Exchanges whose equity market capitalizations exceed \$5 billion at the time of purchase.
- Investment Approach:** Brandes Investment Partners is a bottom-up, value-oriented global equity and fixed income manager. Brandes believes that a strategy of buying businesses at a discount to the firm's estimate of their true value has the potential to produce competitive long-term results.

The Morningstar Rating™ for funds, or "star rating", is calculated for managed products (including mutual funds, variable annuity and variable life subaccounts, exchange-traded funds, closed-end funds, and separate accounts) with at least a three-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star. The Overall Morningstar Rating for a managed product is derived from a weighted average of the performance figures associated with its three-, five-, and 10-year (if applicable) Morningstar Rating metrics. The weights are: 100% three year rating for 36-59 months of total returns, 60% five-year rating/40% three-year rating for 60-119 months of total returns, and 50% 10-year rating/30% five-year rating/20% three-year rating for 120 or more months of total returns. While the 10-year overall star rating formula seems to give the most weight to the 10-year period, the most recent three-year period actually has the greatest impact because it is included in all three rating periods. Brandes Global Value Fund was rated against the following numbers of Global Large-Cap Value Equity funds over the following time periods: 479 funds in the last three years, 406 funds in the last five years, and 274 funds in the last ten years. Past performance is no guarantee of future results.
